THE AMERICAN LHASA APSO CLUB
COVER STORY......

Best in Show American, Canadian, Bermudian, Mexican Ch. Kyi Chu Friar Tuck ROM

"Tuck" was whelped on January 30, 1965. His sire is Ch. Quetzal Feyla of Kyi Chu and his dam is Ch. Colarlie's Miss Shandha.

"Tuck" finished his Championship as a puppy under judge Anna Katherine Nicholas.

"Tuck's" first BIS was reported like this by Louise Mc Mahon of the Philadelphia Evening Bulletin:

"Ch. Kyi Chu Friar Tuck, a small pearl grey and white dog, his long hair cascading down to the ground gaited to his first best in show defeating 1,186 rivals at the 48th annual Bryn Mawr Kennel Club event.

The three-year-old Lhasa Apso was handled by his owner, Robert D. Sharp, of Norwalk, Conn., who noted that Friar Tuck was the second parti-color Lhasa to ever achieve top honors.

Cyrus Rickel, Fort Worth, Texas, who judged the finals, commented, "I like him. He shows like a million and is sound all the way through."

During Tuck's show career the following records and wins were garnered:
The Top Winning Parti Lhasa in the History of the Breed
A Breed Record Holder with 13 Bests in Show
100 Group wins
280+ Group Placings
312+ Best of Breeds
Top Phillips System Lhasa Apso for 1967-1969-1970 as well as being in the top 10 Non Sporting Dogs these same years.
Best of Breed Winner at two ALAC Specialites
Sire of 14 Champions, one a Best in Show dog.

Ch. Mar-Mei's Amber Star of Joval
After showing my stuff and becoming a Match Group Winner at only 4 months of age, I accompanied my breeder-owner to my first AKC show only to bring home a kennel sister, CH. TABU'S IDLE TIME. She made my owner so happy! I secretly wished I could follow in her footsteps. In March, 1976, I heard my Daddy had become CH. TABU'S ELFIN EAVESDROPPER and I knew he had achieved a very special place in our owner's heart. Could I do as well???

At 11 months of age I was given my big chance. With a lot of love and help from my great handler and friend, BOB HUTTON, I won 4 Majors and at 14 months of age gave my owner her biggest thrill -

3 CHAMPIONS IN NINE MINTHS

I am especially proud to be from the first litter ever whelped at Mar-Mei. Thanks to my super sire, CH. TABU'S ELFIN EAVESDROPPER and my dam, CHAMPION PRODUCER, KARNES SHU SHU TUE.

All of us special kids at Mar-Mei wish our newest friend and kennel mate TABU'S PACESETTER good luck as he sets the pace for us this fall in the ring. We know you will make us all proud of you, but hurry home---we miss you!

PRESIDENT'S MESSAGE

The New Year is just ahead. I plan to get to the West Coast during the first few months of the year. In addition, the Club will meet in New York City in February. Our Western Specialty Show will be held in Houston, Texas in March. Next comes our Eastern Specialty Show in April at Syracuse, New York, followed by the Futurities in Los Angeles, California; Milwaukee, Wisconsin; and in the New York area in May or June. If you are interested in attending any of these functions, now is the time to make your plans. Come and have a good time. Maybe we will be able to visit your area in the 77-78 year. Have a happy holiday season. Please remember your friends, the Lhasa Apsos, during this time of the year. A gift to Davis and the University of Georgia is one way of showing that you care.

Regretfully we must announce that Mrs. Marie Stillman has passed away.

Mrs. Stillman was a Charter Member of the ALAC and served as a member of the ALAC Board of Directors from the first election of the Club Officers and Directors in 1959 until the election of 1972. Mrs. Stillman’s son, Alfred, served several years as the ALAC’s Second Vice President.

“AMERICAN” is a name most of us are familiar with as it appears in a great number of the pedigrees of our Lhasas today. Many of the Great Lhasas of today trace ancestry back to American.

“American’s” original stock was purchased from Hamilton Farms among them Winner’s Bitch and Best of Winners at the 1953 Westminster Kennel Club Show, later to be known as Best in Show Ch. Hamilton Torma, the first Lhasa Apso to win Best in Show in the United States.

A few well known Americal bred Lhasas that come to mind are:
- Americal’s Sandar of Pamu
- Ch. Americal’s Torma Lu
- Ch. Americal’s Leng Kong
- Ch. Americal’s Rika
- Ch. Americal’s Nina
- Ch. Americal’s Lha Lu

Mrs. Stillman one of our pioneer Lhasa Apso breeders will be remembered forever for her contribution to our wonderful breed.

Marie Stillman and Ch. Hamilton Chang Tang at 19 months of age.
Gail Maxwell, Sakya Kn'I's., Texas No. 1 breeder of Lhasa Apso champions, sadly bids farewell to breeding and exhibiting of Lhasa Apsos due to personal reasons. Special gratitude to Sparky and Joan Kendall for allowing me to introduce Sparky blood to Southwest.

Too fine a specimen to retain for a pet, I offer our beloved Sparky daughter, Ch. Sakya Tabriz (pictured) for sale. Age 3 yrs., proven, Best of Winners Chic. Int. 1974.

For years I vowed if I ever bred a perfect dog he'd be named Sakya Halleulajah...at last...here he is. Futurity nominated litter, the pick of 3 show males by Ch. Sakya Tabriz and Ch. Gusto of Innsbrook (Group 1's, Best of Breed Chic. Int.)

Best Puppy in Futurity: ALABASTRINE GIRL OF CLYDE

WESTERN FUTURITY CRITIQUE

Pebble Beach is a lovely setting for a show and the weather tried to oblige—lovely, warm sunshine, but there was a lively and chilling breeze which as we all know, plays havoc with Lhasa coats while fraying exhibitors’ nerves.

The over-all high quality of the entry was a delight, but of course this posed several dilemmas for the poor judge. If the whole dog is good--balance, action, showmanship--one then has to get down to the details to make the final selection of winners in each class. This was especially difficult in the puppy dogs, 6-9, and in the puppy bitches, 6-9 and 9-12. These were often difficult decisions and I’m not sure that on another day under different weather conditions there might not be a variance in some of the placings, especially among the bitches. The bitch entry was unusually good. An unexpected difficulty arose in trying to evaluate the action, front and rear, of the blacks under the noon day sun.

I was especially pleased to see a minimum of achondroplastic fronts--only 6 in all, only 2 weaving fronts, 1 paddler, and only 3 really poor rears. This is indeed progress for the breed. Top lines tended to be good, but this is an area where many changes are seen between 6 months and 2 years. A soft back today may correct itself in a few months time and some excellent top lines can deteriorate in time. I thought it interesting that there were so few with high rears, but this is undoubtedly related to the improved fronts--achondroplasia will pull the front ends down as straight stifles will raise a rear. I would have liked to see more of the shorter backs since the length of back is tied in with balance and free, strong gaits. There has been considerable misunderstanding on this point (back length) among breeders and judges and for clarification I would suggest the reading of A.K. Nicholas’s book on judging and-or the excellent series on motion in the Gazettes of 1973.

The head needs to be judged as it relates to the total dog, being especially wary of the too-small or too-large head which with a too-short or too-long neck can ruin the total balance of the dog. Very few of the entries were out of balance on this score which too shows an
improvement in the breed.

Coats are too often difficult to judge in the young and since futurities are, theoretically at least, the testing ground of past and future breeding stock, more emphasis should properly be placed on basic structure and temperament, particularly in those under 15 months.

Musculature was good on the puppies, but flab seemed to be the order of the day for many over 12 months, especially in the dogs, which I thought was interesting, if a bit disappointing. Are we denying our dogs proper exercise in the search for floor-length coats? Where is this called for in the standard?

Pigmentation was excellent in all; eye size and placement varied somewhat, but with only 3 exceptions, not alarmingly. I was disappointed to see several with only 4 lower incisors since this means a narrower muzzle which in turn affects the expression. Teeth, on the whole were strong and in good alignment and there was a notable absence of the grossly undershot and only a handful of scissor bites; no overshots.

I was also pleased to see only 4 dogs and 3 bitches whom I would consider coarse in structure (much more of this is seen in the east). This is an area in which we need to look closely and consider the PURPOSE of the breed—a companion in the home.

The “Best Puppy” was finally chosen for her over-all balance, lovely sound action and elegant style as well as excellence in other areas. It was very close between her and a beautiful platinum bitch with the same attributes, but in the end I finally had to go for the smaller, more feminine bitch since they were both still puppies, but it was my most difficult decision of the day (among many difficult decisions).

The “Best Adult” and “Grand Futurity Winner” is one of the finest young Lhasas it has been my pleasure to see in a long time—balance, smooth, strong action, elegance, coat of proper texture and profuse, lovely head and expression; a real credit to the breed.

It was a great honor to be selected to judge the West Coast Futurity, and thanks to the high quality of the entry and the kindness and courtesy of all their owners, this is one “assignment” I will always remember with great pleasure. Thank you all.

Ruth Smith

The 1976 ALAC Mid Western Futurity was held at Cincinnati Convention Center, Cincinnati, Ohio, May 30, 1976. It offered spacious facility for exhibitor, and only one class in the entry of 53 (18 dogs, 35 bitches, one absentee) could be considered crowded.

To the ALAC Membership, thank you! A fortunate few enjoy such opportunity as I was offered, and the resultant enthusiasm for what is happening within our breed. It was a privilege to judge so many young Lhasas of such high quality. They were beautifully conditioned, well presented, and remarkably well trained to show ring career and what must eventually be well-deserved championship. Such quality represents not only the accomplishment of breeders, but the foundation of our breed’s future as well. Lhasas are obviously in capable intelligent hands!

Following is a general critique of the Futurity:

Heads: Generally lovely, with the pleasing Lhasas expression that marks our breed in such a special way. They were well balanced and very few were spoiled by excessive length of muzzle or coarseness of backskull. Eyes were dark and most were of medium size. A majority carried reverse scissors bites: very few were undershot, and only four were scissors. I do not find this latter unacceptable provided expression remains strong. One highly competitive entry was eliminated because of week underjaw accompanying a scissors bite.

Front: Remarkably and consistently tight elbows were found on almost all the entry. Some carried moderate curvature of radius and many were slightly twisted at pastern and showed enlargement at the joint. There were only two that might be termed badly bowed. In assembly, many were lacking good layback of shoulder, and I would have liked to see longer blades and less gap at withers. Most all showed good angulation and length of upper arm bone.

Rears: Assorted! Very few showed lack of acceptable angulation, and a great percentage were excellent in this respect. Some lacked density of upper thigh muscle, and even more were shallow in breadth of this muscle. A surprising number of the entry were afflicted by either laterally unstable hocks or by weakness and lack of tension forward from perpendicular stack. I suggest this could become a critical problem within the breed and hope all fanciers will be alert and selective, eliminating such problems rapidly.

Pigmentation: Excellent; only one entry showed dilute.

Coats: Variable, as they often are on the young. Some were wavy, some still soft, and a few might be termed inadequate. Most, however, were developing well, of good texture, and were straight. Hopefully, those that were not as desirable need only time and care.

Size: Good! A majority were neither too small nor too large. Bone seemed proportionate to specific animal, and I found most all of good substance for their age.

Color: Despite the standard, I do not judge on color, but to pass up the opportunity to compliment breeders for the lovely strong colors in the entry would be remiss. A great percentage of entry were most striking in this respect, and I appreciated seeing a full range from black to cream and several lovely particolors as well.

Balance: Acceptable on the majority. Some struck me as long, but were well ribbed and short loined. I suspect they simply lacked leg. A few were spoiled in overall appearance by...
lack of neck.

Motion: A great majority of the entry used themselves truly well, with good forelimb extension and rear drive. Those that were merely adequate, and this was a minority, stood out in marked contrast.

Temperament: Although some were a mite uncertain on the table, only one offered any difficulty during examination. There were several uncertain during gaiting and an occasional “down” tail, but this is only lack of confidence. I considered temperament outstanding!

Were I asked to cite one predominating problem among the entry, I would have to answer, topline. I’m well aware that many of the young go through a period where topline is spoiled by high rear that eventually drops, but many that I saw were “down” behind the shoulders as well, and I wish there had been more showing strong level topline, particularly in my older entry.

Despite the disproportionate number, the bitch entry was a much stronger group than the male. Competition was exceptionally keen in the 9-12 month bitch class where many of the 18 entered deserved a ribbon but left the ring without one. In a great many of the classes, I found myself short of blue ribbons, for more than merited this award.

Best Puppy and eventual Grand Futurity Winner came from the 9-12 month puppy bitch class. She caught my eye immediately in the lineup, elegantly balanced with strong level topline and beautiful length and arch of neck. She was not a disappointment during table examination, and she was a delight in motion, with tremendous attitude, style, and use of herself. Her reach and drive were exceptional; harmony of parts and effortlessness, a joy to behold.

The vote of the ALAC membership allowed me the opportunity to judge Futurity. To the Membership, and to the Exhibitors—many travelling from long distance, and to the Breeders as well—outstanding in their accomplishments, Thank you! I learned much, made many new Lhasa friendships, and totally enjoyed a most memorable occasion.

Sincerely,

Marianne Nixon

EASTERN FUTURITY CRITIQUE

It was a great pleasure to judge the Lhasa Apso Futurity hosted by the Merrimack Lhasa Apso club.

I would like to thank them for a true show of New England hospitality and a special thanks to Ken and Harriet Silverman who made every effort to make our stay very enjoyable.

The breed was well represented with an entry of 30. Having been in Lhasas for a number of years and remembering the apparent problems of the breed it was very gratifying to observe the improvement in body structure and overall conformation. The breeders of today are very fortunate to have good quality Lhasas to utilize in their breeding programs and are wise to set their goals for a better Lhasa.

My choice in the classes was very difficult each entry was truly deserving and presented to its best advantage. The winners from the classes are in my opinion the result of diligent work on the part of their breeders.

Al Likewise

Lhasa Apso Bulletin
Alac Norman Herbel
RFD#1 Box 57
Lucas, Kan. 67648

To whom it may concern

Lhasa Apso has made a conquest of American minds, so to speak. We receive a lot of enquiries about how to give an appropriate Tibetan name to an Apso. So, I am taking this opportunity to suggest you that it might be very helpful to Apso lovers and owners if you could print the enclosed list in your Bulletin.

With my best wishes,

Sincerely yours,

Tinley N. Akar
Press & Information

ATTENTION LOCAL SPECIALTY CLUBS!!

"THE LHASA BULLETIN" WILL PUBLISH THE RESULTS OF YOUR MATCHES FREE OF CHARGE IF THESE RESULTS ARE MADE KNOWN TO THE EDITOR.

SEVERAL LOCAL CLUBS ARE NOW ELIGIBLE TO HOLD LICENSED POINT SHOWS. "THE LHASA BULLETIN" WILL PUBLISH YOUR WINNERS AT NO CHARGE TO YOUR CLUB (see page No. 37 of the March 1975 Issue) IF YOU WILL SUBMIT THE NECESSARY INFORMATION AND PHOTOS.

ALSO PLEASE KEEP YOUR CORRESPONDING SECRETARY'S NAME AND ADDRESS UP TO DATE BY LETTING THE ALAC SECRETARY KNOW WHEN THERE HAS BEEN A CHANGE.
“CELIA STARLET” is shown at 8 months receiving her championship.
First from her litter to star, Celia won 2 BEST PUPPY IN SHOW,
5 BEST PUPPY IN GROUP AND 2 RESERVES from puppy class under
Georgiana Lane and Nancy Riley on New England circuit.

This adorable, brainy silver-white bitch is temporarily retired from the show ring to take
her obedience training.

SIRE: CH. POTALA KEKE’S GOLDEN GATSBY
DAM: CH. LADY W’S MISS SADIE WOO

HANDLER:
L. Garrett Lambert
Montreal, Quebec

MEMBER: LHASA APSO CLUB OF QUEBEC
"HARRY WHO?!" our number one son was the second from his litter to receive his championship from the puppy classes. We think he is really SOMETHING ELSE! Harry has won everyone's heart with his gorgeous blue-grey coat, beautiful expression, level top line, driving rear and incidently, elegance and pizzazz.

Harry went reserve from puppy class under Georgiana Lane and BOW for a major under Nancy Riley in his first U.S. shows. In limited showing as a special he has received group IV, group III, and on his 1st birthday, a group II. Harry will be shown sparingly until he matures.

MEMBER: LHASA APSO CLUB OF QUEBEC
"You made me love you..."..."GABLE" was third from his litter to receive his championship at 11 months. Our handsome apricot boy completed his championship with a BEST PUPPY IN SHOW under Dr. Frank Booth and a GROUP III under Mr. Bob Wills.

We are proud of Gable’s out-going loveable temperament, level bite, heavy coat, soundness and balance. He is at stud to approved bitches.

MEMBER: LHASA APSO CLUB OF QUEBEC
Gorgeous “RIVA” was the 4th* from her litter to complete her championship from puppy classes at 11 months. This exquisite bitch carries a silver-blue and white coat and has elegance, showmanship, and soundness combined with a “kissing” personality.

Riva’s wins include BEST PUPPY IN GROUP under Mrs. Heywood Hartley and BEST PUPPY IN SHOW under Mr. Nigel Aubrey Jones.

SIRE: CH. POTALA KEKE’S GOLDEN GATSBY  
DAM: CH. LADY W’S MISS SADIE WOO

BREEDER: Barbara Chevalier  
OWNERS: Deborah & Francis Minogue

TABU'S BRONZE BONANZA

SIRE: BIS CH. Tibet of Cornwallis ROM
Dam: CH. Tabu's Make Mine Minx

Bonanza is pictured winning a four point major at The Newton Kennel Club show, August 28, 1976 under judge Mr. Raphael Schulte.

Bonanza thinks it is time for her children to go out into the world on their own. She is looking for a loving show home for her son whelped 3-27-76, sired by CH. Rimar's J.G. King Richard.

A Best In Show for Big John at the International Dog Show at the Curacao Kennel Club’s first show, in Netherland, Antilles. This is the Carribean-South American circuit. May 30, 1976. Owner handled. Mr. T. van Dijk is the top judge in Holland who judges in England & Scotland also Venezuela.

The judges critique on Big John:

Nice head, good eyes, good ear carriage, beautiful neck and shoulder, good body, excellent coat, of the right structure, real good movement.

Qualification: EXCELLENT: C.A.C. and C.A.C.I.B., First in group and Best In Show...

I would also like to report that my Lhasa Apso “LAMA MILARAPA” won his CD in obedience.
