TOP WINNING LHASA APSO OF ALL TIME
Multi BIS, Multi BISS Am & Can
Ch Rufkins Chip Off The Ol Rock
SOME DOGS, SOME HANDLERS, CERTAINLY SOME WINS ARE JUST MORE SPECIAL THAN OTHERS

Introducing the Record Breaking Dog, his Handler, his Breeder/Owner and his friends without whom none of this would be possible.

The All Time Top Winning Lhasa Apso
Multi BIS, Multi BISS Am & Can
Ch Rufkins Chip Off The Ol Rock
(sire of 4 champions to date)

His record:
20 BEST IN SHOWS
3 Specialty Best
76 Group 1’s
100’s of other Group placements

In excess of 15,000 Phillips Career points. That’s 1 Best in Show every 3.8 group wins... need we say more.

Rockers has won consistently against the toughest competition in the country - namely the #1 & #2 dogs All Systems. 11 of the top 30 All Breeds in 1989 were in the West. Rockers being one of this elite group.

Winning Santa Clara Valley KC 3 years in a row, over a 3,000+ dog entry every time, with 3 different handlers and 9 different judges presiding.

Santa Barbara KC 1990 - the Westminster of the West - Ed Bivin doing the honors.

Palm Springs KC 1989
San Gabriel KC - part of the highly competitive Mission Circuit
Sacramento KC 1989
Del Monte KC to name just a few.

He stands 11" tall under a wicket & weights 16 1/2 lbs.
He is a wonderful ambassador for our beloved breed making friends wherever he goes.

Rockers sends his congratulations to his half-brother BIS Ch Rufkins Rudolph Valentino (Ch Rufkins Jumpin' Jack Flash ROM eligible X Ch Rufway Patra Tashi Tu ROM **) on his fabulous start in the Special Ring, his 5th timeout with his breeder, owner, handler Roberta Lombardi. What fun! Best In Show at Golden Valley KC November 24, 1990 over an entry of 2705 under sporting dog judge Marva Jean Lightner, Breed & Group 1 - Ed Sledzik. Words can not describe how proud we are.

Group Winning Champion
Hopefull's Helious of Knolwood

Helious is proud to tell all about his winning kids.
1. Brynwood Hope and Glory (Katie) went BOB on to a Group 4 Aug 19th at the Pontiac Kennel Club. Katie only needs 3 points to finish.
2. Brynwood's General Assembly (Micheal) went Winners Dog for 2 points
3. (Petrie) Lornich's My Prerogative finished his Canadian Championship in style going BOB 3 days in a row on to a Group 4 on the first day. Wow! Are we happy? . You bet your buns we are! We have 12 Champions at stud, plus show puppies ready now.

Fleetfire
established 1980
Ihasa Apsos Rom
home of 34 champions

Lynyrd, Keke Kahn says, is "type, type, type."

Lynyrd pictured winning best of breed under breeder-judge Keke Kahn the first time out as a special, is a breeder's dream. Lynyrd, shown selectively, sailed through her championship in three months. Carlos De Bango awarded Lynyrd best of breed and her first points in May. Marianne Nixon, breeder-judge of San-jo fame, awarded Lynyrd best of winners and a 4 point major in an ALAC supported entry in June. In August, Lynyrd finished her championship in another ALAC supported entry by winning best of winners over 45 class animals under well-respected judge Maxine Beam.

Those who know the breed choose Lynyrd!!!

Bandit Steals Science Diet!!!
This is the brush everyone's been asking for!

The Ultimate Professional Pin Brush
Designed by Roberta Lombardi
Imported exclusively for #1 ALL SYSTEMS

The finest quality pin brush designed specifically for medium to long coats whether single or double coated where only the finest brushing instrument will do. The Ultimate Professional Pin Brush is especially recommended for finer more fragile coats or just when every hair counts. Soft and pliable as the popular ScalpMaster, The Ultimate Professional Pin Brush glides easily through the hair, minimizing hair loss and saving wear and tear on you. Longer pins get all the way through layers of coat to the skin, resulting in a completely brushed coat and a more ‘finished’ look.

Reinforced handle and brush head, pins hold up longer than any other comparable brush. Handle contured for ultimate comfort and efficiency. Thoroughly tested and highly acclaimed by top professionals nationwide. The Ultimate Professional Pin Brush out lasts all other in its class. See and feel the difference immediately.

You work so hard to grow every hair, feed the best diet and use the best #1 ALL SYSTEMS hair care products. Now #1 ALL SYSTEMS brings you the best in fine brushing equipment.

"CANADIAN CHAMPION DEBASA'S SOUND MACHINE"
(AM CAN CH PAWPRINTS STEALS THE THUNDER X AM CAN CH SHANKARA'S M-G)

"Gabby" finished her Canadian title just one week short of her eleventh month birthday in very limited showing. My sincere thanks to Neil Graves, Stella Loftus, Peggy Gutierrez-Otero, Marion Wait and Larry House (pictured) who finished her with BOW and BOS over Specials. We also had great fun at the Specialty in San Francisco this year! Gabby won her class under Neil Graves, Michele Billings and Joseph Gregory. Not bad for a little Canadian puppy's first shows. Thank you for awarding her quality! Gabby will now do some growing up at home before acquiring her US title.

MERRY CHRISTMAS AND HAPPY NEW YEAR TO ALL MY LHASA FRIENDS IN CANADA AND THE U.S.

He's So Elegant...

Ch. Joyslyn's Mirage
(For Sale)

Dam: Sunshine's Black Cherry (Ch. Sunshine's San Miguel x Ch. Sunshine's Maris Stella)

Thanks to all of you who called to inquire about Raj in response to our ad in the August Bulletin. At that time, he had been "spoken for" on verbal agreement only. The inconsiderate delays and the "check is in the mail" routine got tiresome; therefore, again we are advertising Raj for sale and inviting your inquiries.

Raj is three, still in coat, very playful, and an eager, cooperative stud dog. We are happy now to add that he is also a champion producer. We are offering him for sale only because we have too many males that are too closely related to each other. (I have a terrible habit of falling for those sweet male puppies.)

We will consider any reasonable offer

Ch. Joyslyn's Promise ROM

Dam: Ch. Sinka's Sirronna Khan ROM (Ch. Yat-Sen's Khana x Friday's Gift of Gold)

We are so proud of our beautiful Promise. She has it all: sound structure, beautiful outline, pretty head and tight reverse scissors bite, gorgeous coat, elegant movement, and sweet, sweet disposition. Promise has produced six champions; her son "Bert", Ch. Joyslyn's Masquerade, is featured on the next page.

The breeding which produced Ch. Joyslyn's Masquerade (Ch. Joyslyn's Mirage x Ch. Joyslyn's Promise) was repeated, and Promise's puppies (golds and blacks) were born the end of November. We invite your inquiries about these puppies.

CH. MANTA'S THIS BUD'S FOR YOU SJ

This handsome and exciting showman has been awarded impressive wins and makes friends wherever he goes! 'Bud' can now be seen in the Pacific Northwest handled by Leslie Ann.

Owners: Victor Cohen and Ann Lanterman
Breeders: San Jo and Manta

Bud eats Science Diet
Here we are again, another summer in the high country of southern British Columbia, Canada. Boy, do I like it up here. Guests come and go daily... most of whom I really enjoy. I'm the first one to check them out and sometimes I'm a little too snoopy and have to leave the room.

My life at the lodge is very routine. I get up when I want and if the weather is bad, I just curl up and no one cares. My duties are nil... 0ppps... my mistake... I have to: clean up under the dining table after the guests leave (I'm the carpet sweeper); and second, I'm supposed to wake up my owners when a bear comes into camp after dark. You know my sense of hearing is still very good after 12 years and last year I only heard two. The one thing I hate about my night warning, is usually it means a gunshot to scare the bear away and I do not, do not, like that awful sound. In fact, lately I ignore the bears so my owners sleep thru night and no gunshot. Heel Heel Fooled them.

One of my most memorable days a couple of years ago was when a chocolate lab was visiting us... a well-trained hunting dog, named Turbo. Most retrievers you know have to be retrained all the time. Now I have had no formal training; just my common sense, we Lhasas have. Anyway, we were outside and Turbo was working with dummy, not the man, but the rawhide pi. The man threw the dummy, it bounced and disappeared. Finally Turbo was told to go find it. Well, I sat there and watched this fiasco. Turbo was here, there and everywhere. The man gave signals with his hand, he yelled and still no rawhide dummy. Well, finally I ran out of patience. This is so simple any dummy knows where it went. So, I meandered forth. No hurry, that lab won't pay any attention to me, nobody will. I think I remember what it smells like, but not to worry. Into the open pump house I went with all the pipes and whatever laying around. In the far corner behind a big pump and under a pipe, I sniffed it out. A cinch. With dummy in mouth (boy, is this big thing awkward, now proud as punch, I pranced out of the building my owner could not believe it either. I was the hero of the day. Me, the laid-back, quiet, unassuming little guy I've always been, showed that lab and all those present how smart I really am.

Now, I'm no show off you know; I just could not sit there any longer and see Turbo get more and more frustrated. Besides there comes a time when we all need to be recognized. To this day, my owners tell this story over and over again, like some fish stories I've heard a thousand and one times, but you know when I hear them, I just chuckle to myself and move my eyes and continue to lie comfortably by their feet.

Don't underestimate the Lhasa; we are way ahead of you.

*Leo*

AKC CONTINUES EFFORTS TO COMBAT ABUSES IN BREEDING

In support of its continuing commitment to improving canine welfare in the breeding and raising of dogs, the American Kennel Club has taken several significant steps to minimize the practice of cruel and inhumane treatment of dogs.

The AKC Board of Directors recently adopted the following policies:

Effective August 13, 1990, the American Kennel Club will report to the appropriate governmental authorities or humane agencies conditions which, in the opinion of the authorized AKC representative, are inhumane or unsanitary.

Effective September 10, 1990, cruelty to dogs or inhumane treatment of dogs is recognized to be conduct prejudicial to the best interests of the American Kennel Club and to the best interests of the sport of pure-bred dogs, pursuant to the Constitution, By-Laws and Rules of the American Kennel Club.

A conviction or admission in a court or tribunal of competent jurisdiction or a finding by a federal or state administrative agency for cruelty to animals shall be grounds for the immediate suspension of all American Kennel Club privileges, for such period as the Board of Directors shall determine.

Proof of such conviction shall be equivalent to a finding by an American Kennel Club Trial Board that the person has engaged in conduct prejudicial to the sport of dogs and shall be treated accordingly by the Board of Directors.

The American Kennel Club shall notify the person whose privileges are suspended and shall afford the person the opportunity to appeal the suspension by submitting proof that he or she was not convicted for such conduct or that the conviction was reversed or vacated upon appeal.

If such a conviction is reversed or vacated on appeal, and there is no further prosecution of the charges, and the American Kennel Club is presented with proof of same, the person’s privileges with the American Kennel Club shall be reinstated.

To maximize registration efficiency, the AKC will limit the amount of time which breeders have to register their litters to 6 months from the date of whelping the litters. Individual owners will be required to submit registration applications within 12 months of the application issuance.

Supplemental transfer slips will now be available exclusively through the AKC. Previous approval for outside agencies to reproduce these forms has been rescinded.

In addition, the AKC staff has been recently instructed to hold discussions with representatives from major commercial breeding industry groups such as American Professional Pet Distributors, Inc. (APPDI) to make them more aware of AKC’s tightened inspection, reporting and suspension procedures. Similar discussions have been held with the Humane Society of the United States and the National Society for the Protection of Animals.

Follow-up meetings are being scheduled to exchange information and discuss additional methods for combating abuses in breeding.

We Feed Science Diet
On November 11, at the Salisbury, Maryland show, the inevitable finally happened. A small motor home caught fire, the propane tanks exploded, and within 90 seconds the motor home was completely destroyed, ravaged by fire. Also damaged were several cars parked in close proximity to the motor home.

By the grace of God, the motor home had no one or no animals in it. No one was injured. Fortunately, yet, but depending on good fortune is the attitude too many owners of motor homes take. They should view this incident as a warning and take precautionary and preventative steps NOW before this incident repeats itself.

Dog shows have grown at a rate far surpassing anyone's expectations. With this growth has come a large influx of motor homes. They offer convenience, comfort, and provide both transportation and lodging in a sport where these are very important considerations.

The space needed to conduct a show properly has grown, due to the influx of large vehicles and ergo, large parking areas. Clubs are simply not prepared for dealing with there large numbers of gargantuan vehicles.

They squeeze them in because everyone wants to be as close as possible to the rings. Many clubs do not provide for someone to be at the show grounds the night before, seeing that motor homes and other vehicles are parked properly.

Exhibitors arriving early from other show "cone" or stake out areas for their friends, destroying any rhyme or reason of a parking plan. Motor homes and other vehicles get wedged together during show hours, creating a hazardous situation among themselves and eradicating any preconceived fire lanes allowing access of fire trucks or allowing an "escape ally" for motor homes adjacent to one in trouble.

Next, we must examine the intended function of a motor home. For the most part, motor homes are engineered to be driven to a (camping) site, parked, lived in for a number of days , and driven home. Some may be capable of touring the country on the Interstate Highway system, but none are designed to be driven into fields, be towed out of mud, to be loaded with dogs and assorted paraphernalia, and log 30 to 60,000 miles per year.

This checklist should be used on a regular basis; use it to check your automotive mechanic and above all, your RV technician. Some of the areas of checking must be done before you leave for your shows and some must be done upon arrival at each show; finally, some need to be done only on a periodic basis, such as once a month. Remember, a little attention will prevent a disaster.

Ch. San Sei On Target

Target started his show career with a 4 point major at his very first show in August and quickly finished with a total of 3 majors on November 17th! Thanks to the judges that made this possible:

Charles Herendeen - 4 pts.
John Honig - 3 pts.
Mrs. William Kendrick - 3 pts.
Betty Munden - 2 pts.
Mrs. J. Andrena Brunotte - 2 pts.
Dr. Samuel Draper - 2 pts.

Litter sister Daisy has 4 points and is looking forward to many more in the spring. Daisy owns Pam Barnes & family in Clinton, North Carolina.

PUPPIES! Target’s mother is looking for show homes for her new babies! Whelped Sept. 13, 1 Male, 3 Females. Great personalities!

3. HEAT
Too much heat in engine compartment.
Caused by poor timing, bad plugs, faulty exhaust system.
Check all fluids - water, oil, etc.

4. POOR NIGHT VISIBILITY
Poor ground connections means poor lighting front and rear.

5. REMEMBER- WHILE DRIVING LISTEN AND FEEL. YOUR INSTINCTS ARE USUALLY CORRECT.

LIVING AREA

GENERATOR/ELECTRICAL 110 VOLT

1. ODOR
Smell fuel
Smell exhaust

2. VIBRATION
Out of time. 200-500 hrs. needs tuning.

3. ELECTRICAL CONNECTIONS
Check grounds - both the obvious and the hidden.
Loose connections cause resistance buildup which causes heat and voltage loss, eventually loss of insulation and fire.
Check all positive connections (hot lead) for the same reason as the ground or negative leads

4. LAND LINE OR ELECTRICAL HOOK UP TO OUTSIDE SOURCE OF POWER
Use a good cable; should be at least #12 wire to prevent heating of wires and damage to small electric motors, etc.

5. 12 VOLT SYSTEM
Check all connections, both negative and positive wires.
Same reasoning applies here as above in the 110 volt system.

6. BE CONCERNED AND INVESTIGATE STRANGE ELECTRICAL HAPPENINGS
Lights that won’t work, motors, fans that won’t operate, etc.

L.P. GAS
To check for leaks, use a spray container filled with soap and water.

1. Spray soapy solution around valves, tubing, connections, etc. If you see a bubble, STOP get it fixed right away. If possible turn gas OFF at the tank or bottle.

2. Have all L.P. fuel connections checked at all your appliances.

3. Have all pilot lights on your stove removed; they are no longer code and are considered dangerous. Use a flint lighter to ignite stove and oven.

4. Have all L.P. appliances checked regularly for proper gas pressure.

5. Be sure there are no bug, bird or animal nests cluttering your vents or areas around the appliances.

6. Always be on the alert for the smell of L.P. gas. If you smell it, turn the L.P. off at the tank and notify your neighbors. Be prepared to GET OUT if necessary.

SAFETY EQUIPMENT

1. Fire extinguishers
   1 near the driver’s cockpit
   1 at each door on the street side

2. Flashlights/Road Flares
   This checklist is not meant to be an all inclusive DO AND DON’T list, but rather a guide to assist you in sniffing, snooping and listening.

   Above all, if you are not sure, get the problems professionally repaired, but PLEASE, again check the work done.

Remember, if there should be a fire disaster-in about 2 minutes it is all over.

CHALIN LHASAS ALL FLIP OVER SCIENCE DIET
This wonderful little dog was a joy to show. Everything about him was terrific - attitude, temperament, conformation, head, bite, coat, movement and his 10 1/4" size.

He began 1990 in May needing a major to finish. After taking 2 reserves to majors, he finished on his third attempt. Judge Mr James Clifford Hayward from Australia is pictured awarding Magnum a 4 point major which finished him one week after his 2nd birthday Ch Chalin's Luv A Plenty (Penny) was awarded a 4 point major the same day.

I want to thank all the judges who appreciated this fine young Lhasa.

This handsome typey male was limitedly shown as a youngster and acquired 2 points at one year of age. He then stayed home 18 months to mature before being shown for "real". Squire began his career the end of March 1990 and finished in Sept 1990 being shown a total of 20 times. He is 11" tall, weights 17 lbs. has a beautiful head, expression, correct movement displayed in his covering a lot of ground with very little effort, and correct bite with full dentition. He is pictured being awarded a 4 point major to finish by James Cavallaro. A Big Thank You to all the judges that awarded Squire points.

WOW! What a girl. Penny represents the second generation breeding for CHALIN and being proud of her goes without saying. She has many fans including the judges. As a puppy, she won BISM at several Lhasa matches, went on to winning reserves to majors and once an adult quickly finished with 2 four point majors and 1 three point major to her credit. Penny will be spot specialed until she is bred next summer. She will be cheering for her brother "Chalin's Good N' Plenty as he proceeds with his show career. Thanks to all the judges that appreciated the excellent qualities that Penny exhibits.

G. P. began his show career in style by being awarded BOB from the Open class by Mr Jenner. He then went on to be awarded a 4 point major by Mrs Paula Bradley.

Like his father, this male has all the attributes that equals excellent quality and type: beautiful head and expression, wonderful coat texture, excellent movement and showmanship. G. P. is 10 1/4" tall and weights 15 lbs. He is the foundation "stud dog" at MA-SON Lhasa and will be bred shortly to Chalin's Classi Casi O'Kaishan, foundation bitch and dam of CH CHALIN N' MA-SON'S SHOW STEALER (MAGNUM).

G.P. is anxiously waiting for his half-sister 'MA-SON'S Starblaster" to begin her career the Spring.

FOR LHASA APSO EXHIBITORS, BREEDERS AND HANDLERS

For our JUDGING FORM service we have now accumulated Award results from 1987 to September 15, 1990. In addition to our annual JUDGING FORM publications and CHAMPIONSHIP FORM books, we are expanding our services to offer individual printouts of show results by specific Lhasa, owner names or judges.

We are also selling the entire database records on disk for each year together with the software program to extract award history by Dog name, Kennel, owner, state, region, judge or show with the ability to print this material to any dot-matrix or H-P laser printer. Each year's history contains the results of over 1,000 shows and 350 judges.

If you own an IBM compatible PC with a 1.2 mb 5 1/4 inch drive or a 1.44 mb 3 1/2 inch drive, our JUDGING FORM program and data base will give you the ability to do in depth studies of results for analysis of Lhasa judging and owner strategies.

Check off the years you want on this form, and be sure to indicate the size of your disk drive, either 5 1/4 or 3 1/2 and the type of printer, either dot-matrix or H-P Laser.

Compiled from the records of 1990 THE JUDGING FORM
(Copyright publication of Sentinel Consultants Inc.)

The Lhasa Apso standings for 1990 are based on a point system as follows:

- Best In Show.........................10 points
- Best In Specialty Show..............5 points (ALAC 10 pts.)
- Group 1................................5 points

In the event of point ties, dog with the highest number of Best of Breeds first. After that dogs are listed alphabetically.

OBEDIENCE CLARIFICATION AND INTERPRETATION FROM AKC

In response to a request from an ALAC member for an interpretation and clarification of AKC Obedience rule CH 1 Section 16 second paragraph from the end, regarding Hair tie back, The American Kennel Club answer:

"A Lhasa Apso may be shown in the Obedience ring with the hair over its eyes tied back using one rubber band such as a Poodle or Shish Tzu's hair is normally tied back in the breed ring or with the hair parted and one rubber band used on each side for the part as a Maltese is normally shown (without the fold-over topknot).

Braiding the fall is not acceptable.

Please do not hesitate to contact the Performance Events Department if we may be of further assistance."

BEWARE ALL DOGS!

This chain letter is going the rounds.

Dear Dog Owner:

This chain letter is meant to bring relief and happiness to you. Unlike most chain letters, it does not cost money. Simply send a copy of this letter to six other dog owners who are dissatisfied with the way their dogs are working and showing. Then bundle up your dog and send him to the dog owner at the top of the list, and add your name to the bottom of the list. In one week, you will receive 16,436 dogs, and one of them should be a real dandy. Have faith in this letter. One dog owner broke the chain and got his old dog back.
