

Romeo

When I brought my Lhasa Apso “Romeo” home 7 years ago, I never imagined the journey we would take together.

After we adopted our 3 1/2 year old Lhasa, Romeo gave me the emotional comfort and unconditional love that I needed to get through the sudden passing of my husband. It was then that I realized this little dog was someone special! I enrolled Romeo in a basic obedience class. His two previous owners spoke Spanish, so he needed to learn English as a second language! He passed his CGC and we began Therapy Dog training.

Romeo has been registered with Therapy Dogs International for five years. It has been amazing to watch him show love and kindness with everyone he meets. The smiles are priceless and tears humbling. We both miss our visits during this pandemic, but hope we will be back loving again soon!
